Sat Oct 26 12:02:46 2024 +0800 W07-P3: Connect your Github rep

W07-P4: Create navbar with links to class demo w02, w03, w06, and deploy it to Vercel

=> local

The image is a composite of two screenshots. The left screenshot shows a VS Code editor interface. In the Explorer sidebar, the file 'w07_43.html' is selected. The main editor area shows the HTML code for a web page titled 'Class Demo: Victor Hsu'. The code includes a meta tag for viewport, a charset declaration, and a link to 'w07_43.css'. The JavaScript code in the body creates a class demo and a list of items. The right screenshot shows a web browser displaying the rendered page. The title is 'Class Demo: Victor Hsu'. Below the title is a section 'Latest Blog Using Breakpoints' with three blog cards. Each card has a title, a description, and a 'Read More' link. The cards feature images of coffee, a bridge, and a city skyline.
